# STONEHENGE **BASICS** by Linda Ludovico

After several requests for colors not included in the gradation palettes, we have created a group of basic colors that can be used alone, together or in combination with our gradation palettes. Colors ranging from soft pink to rich reds and vibrant magenta as well as blues from mid to deep tones are offered. Peacock shades from turquoise and teal to shades of green as well as yellow and orange are also included. Essential neutrals complete the group. Many of these colors can be promoted for holiday projects from Halloween to Christmas and Valentines to St. Patrick's Day as well as national days of celebration.
