Created by Bonnie Lemaire, My Happy Place is where every quilter finds themselves when they are creating. This whimsical collection features a block print that can be deconstructed for use in quilts but also includes labels for your quilted creations. A variety of mix and match multi-directional quilt inspired patterns are paired with plaids, checks and novelty prints. Finish your projects with the playful border stripe. The updated saturated pastel palette featuring turquoise, green, gray, and white, with clay accents is not only on trend but also playful and refreshing. A selection of Premium Colorworks solids complete the collection.
