# *Orchids in Bloom*

Created by Michel Design Works, Orchids in Bloom is like a stroll through a botanical garden filled with exquisitely detailed orchids, lush foliage and a flutter of butterflies and dragonflies. Naturally fresh hues of pink, purple, melon, green and white characterize the collection. In addition to the multitude of mix and match patterns offered in the Orchids in Bloom, a selection of Colorworks Premium Solids coordinate beautifully with the collection. As well, the collection includes a quick sew apron panel, placemats and tote all printed on Northcott's premium quality heavy weight canvas.
