# STONEHENGE by Deborah Edwards

# VERONA

Created by Deborah Edwards, Stonehenge Verona was inspired by the beautiful inlaid stone floors so abundant in Verona and throughout Italy. The exquisite stonework of Verona combined with best-selling Stonehenge textures offers a winning combination. The classic designs have an updated look in the Midnight and Twilight palettes. The feature patterns are offered in a variety of scales and values adding interest, depth and dimension to your quilts and other projects. Verona coordinates perfectly with Stonehenge Gradations, Midnight and Twilight palettes by Linda Ludovico thereby supporting existing Stonehenge Gradations and breathing new life into the popular basic. As well as the Stonehenge Gradation basics, a selection of existing wide backings coordinate perfectly with the collection.
