NEW DAWN

By Melanie Samra and Deborah Edwards

New Dawn is a creation from the dynamic design duo, Deborah Edwards and Melanie Samra of Northcott. Inspired by the Serengeti, one of the seven natural wonders, New Dawn features magnificent elephants at a water hole against a backdrop of acacia trees. The collection features a unique design technique that is layered with a multitude of natural textures. The sophisticated style is intricate and complex. A selection of exquisite natural marble and stone textures complete the coordination. Journey through the wonders of the Serengeti in a tranquil palette of natural hues that reflect the landscape in quiet shades blue, brown and gray.
