Instructions for all projects
1. Roughly cut project from fabric, on or just outside dashed cutting lines or edge of printed image.
2. Sandwich project (quilt top), fusible fleece or batting, and backing fabric with wrong sides of fabric against batting material.
3. Place quilt sandwich on ironing surface and press through layers, using steam to lightly fuse layers to fleece. Avoid touching iron to fusible fleece.
4. Cut as desired. When cutting is finished, trim away excess fabric from perimeter. Anything outside printed edge of design is excess.
5. Bind raw edges of scalloped-edge topper or round mat using prepared bias-cut binding. Bind square pieces with prepared straight-grain binding.
Download Patrick's "Make a Hanging Sleeve" tutorial at www.PatrickLose.com/instructiondownloads if you'd like to add a sleeve to the back of your wall hanging.

*To make a hot pad or trivet from a mini mat print, use Warm Company's Insu-Bright® heat-resistant batting along with a layer of 100% cotton batting.

Christmas
MAGIC

Cut, sandwich, quilt, trim, and bind. It doesn't get much easier than that. In a fraction of the time it would usually take, you can create useful and decorative pieces for yourself or for gift-giving with these projects I designed for my Christmas Magic fabric collection. The scalloped-edge table topper is a perfect base for a party centerpiece and the 9-inch round and square designs make great mug mats, hot pads, or trivets. Whip up the Christmas Magic wall hanging in a couple of hours and deck the walls! I hope you have as much fun making these projects as I had designing them for you.

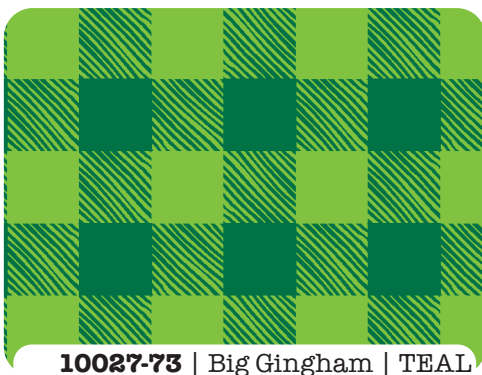

Happy Christmas Quilting!

Patrick
