# Sewing <sup>is</sup> my HAPPY place

by Nina Djuric

Created by Nina Djuric, seamstress, aspiring quilter, maker extraordinaire, and one of Northcott's talented fabric designers, Sewing Is My Happy Place is positively charming! The featured panel offers a quilter's take on the serenity prayer. The coordinated panel features labels and inspirational blocks that you can add to your quilts and sewing projects. The chalkboard background creates a nostalgic vibe to the collection. A selection of multi-directional prints including sewing tools, spools and buttons complement the panel while the multi-color stripe and button print add a pop of color along with a wide selection of Canvas blenders.

This collection will appeal to quilters, seamstresses and the growing number of new sewers and makers. It is ideal for quilts, wall-hangings and a variety of projects to support your sewing addictions! Have fun and be creative with Sewing is my Happy Place!
