Windswept

STONEHENGE by Linda Ludovico

Created by renowned designer Linda Ludovico, Windswept portrays an artistic autumn landscape with exquisite detail in her signature Stonehenge style. A unique combination of leaves, branches and natural stone textures are featured in the panel and focal prints in warm earthy shades. The exquisite ombre is available in two colors; combined with the panel and coordinating prints the creative possibilities are endless. Complete your project with the stunning ombre backing, making the back of your quilt as beautiful as the front.
