# Flamenco by Aie Rossmann

Created by Aie Rossmann, renowned designer, quilter, long-armed and author, Flamenco is based on her award-winning quilt "Insomnia". Remastered in Northcott's popular Toscana as an oversize 43" x 43" panel, Insomnia is the focal point of the Flamenco. In addition to the dramatic panel which makes a centre piece for any quilt or for free-motion quilting classes, the collection includes a spectacular border stripe to easily expand the panel into a larger quilt. As well a selection of mix and match multi-directional coordinates and textures provide endless creative possibilities in vibrant hues. To complete the collection, a wide range of coordinating Toscana prints are offered.
