# Little Rascals naturescapes by Karla Mann

With featured art created by renowned wildlife artist Karla Mann and naturescapes' textures from Deborah Edwards, Little Rascals will steal your heart. These adorable little rascals are learning the ways of the world from a mom who definitely has her hands full! The 28" panel, border stripe and all-over print feature the beautifully rendered, adorable racoons taking center stage while a selection of naturescapes' textures including bark, foliage, and stone play a supporting role.
