KIT AVAILABLE at
QuiltandSewShop.com

ColorWorks Concepts is a completely innovative program featuring colorful panels and prints that coordinate with our ColorWorks Premium Solid line. The panels are printed to look like complex piecing projects. Since there is no piecing, you can move onto adding borders, quilting and embellishing. Making this an ideal collection for quick sew projects, ColorWorks Concepts is divided into Phase I & II and there are 7 coordinating 24" Panels for this collection.
